

Why I want to be a pilot

I want to be a pilot because it's a fun job and easy to do. That's why there are so many pilots flying around today.

Pilots don't need much school, they just have to learn to read numbers so they can read instruments. I guess they should be able to read road maps so they can find their way when they get lost.

Pilots should be brave so they won't get scared if it's foggy and they should stay calm. Pilots have to have good eyes to see through the clouds, and they can't be afraid of lightening or thunder because they're closer to it than we are.

The salary pilots make is another thing I like. They make more money than they can spend. This is because most people think flying is dangerous, except pilots don't because they know how easy it is.

There isn't much I don't like, except that girls like pilots and all the stewardesses want to marry pilots so they always have to chase them away so they won't bother them.

I hope I don't get airsick because I get car sick and if I get airsick I couldn't be a pilot and then I'd have to work.
